

18. MARKETS

18.1:Introduction

Our divisional secretariat has many villages and the people of this division are engaged in agricultural activities & production activities. Hence, the people of this division need proper marketing facilities.

18.2: Seasonal Markets

There are no seasonal markets functioning in Nallur division.

18.3: Pola Market

One main market and two rural markets are functioning in Nallur division.

Main Market	Rural Market
Thirunelvely Market	Kalviyankadu Market
	Kokuvil Common Market

18.4:Problems & Solutions

Even though there are markets in our division that is not enough to fulfill the needs of the producers and Consumers.

Suggestions for the development of this sector are:

1. Providing water and sanitation facilities.
2. Developing the markets which are located at the G.S divisions J/109, J/128 and according to the need of the target group of the division.
3. Constructing new markets at Vannarpannai and Ariyalai area for the benefit of the people.

More infrastructure facilities have to be provided to the Thirunelvely main market because a vast number of producers, businessmen and consumers are using this market not only from Nallur division, but also from neighbor divisions.
